

# Grilled cheese sandwich

My grilled cheese is one of the best sandwiches in the world. It has ooey gooey delicious cheese inside. With a golden buttery outside it is the highlight to your day if you make my grilled cheese. It will be the yummiest of them all. It will just melt in your mouth and just taste so delicious.

## Ingredients:

You will need 2 slices of bread. Enough mayonnaise to cover the bread... it has to be mayonnaise! One slice of cheese if you want medium gooeyness 2 slices of cheese for extra gooey.

You need to grab both slices of bread and then glaze the top and bottom of bread with mayonnaise, just mayonnaise, and then put the cheese in the middle and turn the stove to medium heat and then put oil in the pan (if you don't have a non-stick pan) and then let the pan warm for at least a minute. Put the sandwich in the pan and cook on one side until browned then flip now cook that side until cheese is melted. Now you're done! I hope you enjoy!
